***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance: In response to the decision by the board of Patent Appeals and interferences, the examiner has withdrawn the previous grounds of rejection. Furthermore, the prior art does teach a method for managing power in a battery operated device by allowing the device to operate until a battery failure occurs, the battery failure comprising a condition in which the battery's charge drops below a level required to operate the device; determining, upon an attempt to restart the device after the battery failure, that the battery has insufficient charge to support further operation of the device; shutting down the device properly using residual charge in the battery, the battery having recovered sufficiently during a brief period between the battery failure and the attempt to restart the device to support shutting down the device properly. Therefore, in response to the decision by the BPAI, the claims are allowed over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
